

VINAY KRISHNA GUDIKANDULA

Software Engineer | Full-Stack Development, Developer Tools & System Design

☎ +918179992200 ✉ vinaykrishna.codes@gmail.com 🌐 LinkedIn 🐙 GitHub 📍 Guntur, India

PROFESSIONAL SUMMARY

MERN Stack Developer specializing in **developer experience**, **product architecture**, and **engineering quality**. Designed and delivered three full-stack products, including CodeMelt, a published npm CLI that transforms repositories into AI-optimized context. Proficient in **React**, **TypeScript**, **Node.js**, **Express**, and **MongoDB**. Experienced in **JWT authentication**, role-based access control, REST API design, and cloud integrations. Approaches each project with a focus on **user experience** and **system design**.

EDUCATION

Vignan's Foundation for Science, Technology and Research

2022 - 2025

Bachelor of Computer Applications (BCA)

CGPA : 8.3 / 10

- CGPA: 8.3 / 10

PROJECTS

CodeMelt | 🐙 Github 🌐 Website 📄 NPM

Developer

Published an npm CLI and repository intelligence platform that transforms codebases into AI-ready development contexts.

- **Developed** a local-first analysis pipeline for **repository scanning**, **architecture detection**, dependency mapping, and context generation.
- **Released** a distributed npm package for global installation and zero-configuration execution via npx.
- **Implemented** detection for multiple languages and frameworks, including Node.js, React, Next.js, TypeScript, Python, Go, Rust, Java, Kotlin, PHP, and monorepos.
- **Created** a companion web platform for repository insights, technology discovery, and architecture visualization.

Technologies: Node.js, TypeScript, JavaScript, React, Express.js, MongoDB, Tailwind CSS

Technologies / Tools Used : Node.js, JavaScript, TypeScript, React, Express, MongoDB, Tailwind CSS

StudySpark | 🐙 Github 🌐 Website

Developer

Role-based learning and exam preparation platform supporting students, instructors, and administrators.

- Implemented **JWT-based authentication**, **OTP verification**, and **password reset workflows** using Express middleware for enhanced security.
- Built dedicated **Student**, **Instructor**, and **Admin dashboards** for exam management, resource sharing, flashcards, analytics, and content administration.
- Developed **REST APIs** and **MongoDB** data models for assessments, resources, user management, and educational workflows.
- Integrated **Cloudinary** and **CSV bulk upload** functionality for efficient resource management and large-scale question creation.

Technologies: React, Node.js, Express.js, MongoDB, JWT, Cloudinary, Tailwind CSS

Technologies / Tools Used : React, Node.js, Express, MongoDB, JWT, Cloudinary, Tailwind CSS

PromptVault | 🐙 Github 🌐 Website

Developer

Developed a comprehensive content management platform for discovering, organizing, and managing AI prompts.

- **Engineered** a content discovery interface featuring search functionality, category navigation, curated collections, and trending content exploration.
- **Implemented** engagement tracking, authentication workflows, and secure session management using **JWT** and HTTP-only cookies.
- **Created** an Admin CMS for content management, asset uploads, category administration, and platform analytics.

Technologies: React, Vite, Framer Motion, Node.js, Express.js, MongoDB, Cloudinary, Tailwind CSS

Technologies / Tools Used : React, Vite, Framer Motion, Node.js, Express, MongoDB, Cloudinary, Tailwind CSS

SKILLS

Programming Languages :

JavaScript (ES6+), TypeScript, Python, C++, HTML5, CSS3

Frontend :

React.js, Next.js, Vite, Tailwind CSS, Framer Motion, React Router, Context API

Backend :

Node.js, Express.js, REST APIs, Middleware Architecture

Databases :

MongoDB, Mongoose ODM, SQL, Firebase

Authentication & Security :

JWT Authentication, Role-Based Access Control (RBAC), OTP Verification, HTTP-Only Cookies, Password Reset Workflows

Tools & Platforms :

Git, GitHub, Postman, Figma, CLI Development, npm Package Publishing, Repository Analysis

Languages :

English, Telugu
